Objective

To secure a challenging position as a software developer where I can utilize my programming skills, problem-solving abilities, and passion for technology to contribute to innovative projects. Eager to grow and learn within a dynamic team while helping the organization achieve its goals through efficient and effective software solutions.

Education

KSR Institute for Engineering and Technology, Tiruchengode <i>UG - B.Tech in Information Technology</i>	2021 – 2025 7.40 CGPA
Govt. Higher Secondary School, Lakkapuram <i>Higher Secondary School</i>	2020 – 2021 87.50%
Govt. Higher Secondary School, Lakkapuram <i>Secondary School</i>	2018 – 2019 83.20%

Technical Skills

Programming Languages: Java, JavaScript, Python

Front-End: HTML5, CSS3

Database: SQL

Tools: GitHub, Canva, Visual Studio Code, Cursor, Figma, Python IDLE, Netlify, Adobe PhotoShop, Adobe Illustrator

AI Tools: n8n, FireBase

Internships

Cognifyz Technologies Pvt Ltd <i>Frontend Development Intern</i>	Apr 2024 – May 2024 <i>Duration: 1 Month</i>
--	--

- Implemented tasks like form styling and validation, and integrated APIs to fetch data from back-end using HTML5, CSS3, and JavaScript.

Mayura Software Solutions <i>Python Development Intern</i>	Jun 2024 <i>Duration: 3 Weeks</i>
--	---

- Applied core Python programming concepts such as control flow, functions, and data structures to create functional and engaging projects.
- Designed and developed interactive console-based applications, including a Snake Game and a Number Guessing Game.

Rejola IT Services <i>Python Development Intern</i>	Jul 2023 <i>Duration: 2 Weeks</i>
---	---

- Learned the Basic fundamentals of Python programming and worked with essential packages.
- Applied the concepts through practical tasks under guided mentorship.

Projects

An Enhanced Speech Emotion Recognition System Using Recurrent Neural Networks(RNN)

- **Technologies Used:** Artificial Intelligence (AI), Deep Learning, Python, HTML5, CSS3, JavaScript, Django, GitHub
- Developed an RNN-based Speech Emotion Recognition System with 96.96% accuracy, **3.03% higher** than CNN, collaborating on UI and AI model development & Built a Web Interface using HTML5, CSS3, and JavaScript for **real-time predictions with scalable and efficient deployment Following Agile Development Methodologies, Participated in Code Reviews & Development Process in Collaboration with a Team in Cross Functions such as Designing, Development.**
- Contributed to the project across all the phases of **SDLC Methodologies, maintained documentation providing end to end technical support for users**, presented and published a research paper entitled "**An Enhanced Speech Emotion Recognition System using RNN Compared with CNN**", at Nandha College of Engineering, Erode in ICICCS Conference and stored in GitHub

Puma Shoes E-Commerce Platform

- **Technologies:**HTML5, CSS3, JavaScript (ES6+), Firebase Authentication, Firebase Firestore, GitHub
- Developed a futuristic e-commerce platform for PUMA shoes with product catalog, shopping cart, and user reviews.
- Built a responsive and dynamic frontend with modern UI/UX, smooth animations, accessibility, and SEO-friendly optimizations.
- implemented secure authentication using Firebase (Email/Password and Google OAuth) and real-time database integration for products, users, and orders.
- Contributed to all SDLC phases including UI design, frontend development, Firebase backend integration, and GitHub version control.

Weather Monitoring System using IOT

- **Technologies Used: Internet Of Things(IOT), Raspberry PI, Arduino UNO/Nano/MEGA**
- Built an IoT-based weather monitoring system using Arduino. This project measures real-time temperature and humidity, sending data wirelessly for easy remote access and analysis of environmental conditions.

Guess The Number Game Website

- **Technologies Used: HTML5, CSS3, JavaScript, Netlify**
- Developed an interactive guessing game with random number generation and DOM-based score tracking, and deployed it using Netlify.

Certifications

- Front End Development(HTML) - Great Learning
- AWS S3 Basics - Coursera
- Python - DigiLabs
- Java (Basic) - HackerRank
- CSS (Basic) - HackerRank
- JavaScript (Basic) - HackerRank
- SQL (Basic) - HackerRank
- Problem Solving (Basic) - HackerRank

Achievements & Co-Curricular

- Workshop: Participated in a Two-Day workshop on Cybersecurity & Ethical Hacking conducted by the National Information and Cybersecurity Council (NICC) at KSR Institute for Engineering and Technology, Tiruchengode on 25th and 26th July 2023.
- Participated in Code Olympiad, a National Level Coding Event in ABLAZE 2023 at KSR College of Engineering, Tiruchengode on 13th October 2023.

Area of Interest

- Web Development, UI & UX.

Strengths

- Quick Learner, Adaptability, Logical Thinking, and Problem-Solving in Programming.
